Explaining the steps to create the Game

WORKSHOP

Creating the layout of the board game

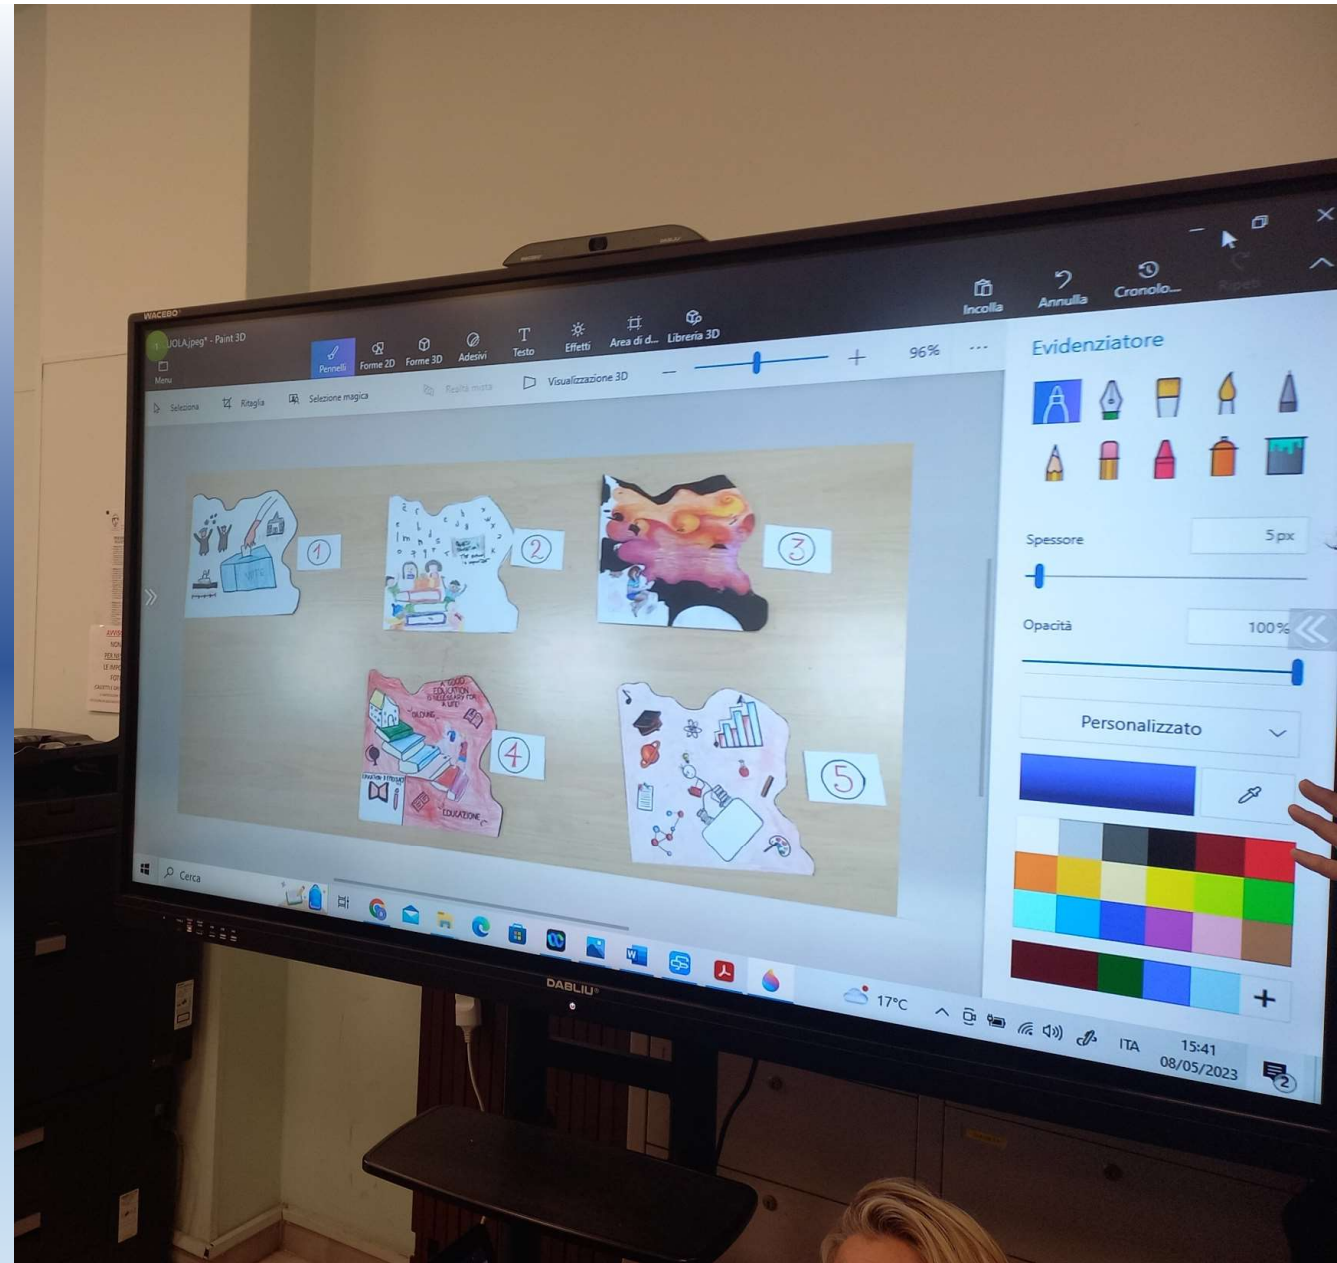

The students contribute to the construction of a board with four drawings placed in the four corners of the board. The drawings are about the four topics which have been analyzed so far:

- **GOAL n. 1: Hunger and Poverty: the need to share**
- **GOAL n. 4: Right to education and democracy: the need to educate**
- **GOAL n. 7: Energy and natural resources: the need to manage**
- **GOAL n. 11: Sustainability and responsible consumption: the need to think.**

Selection of the drawings for the game board

The Students vote the four most beautiful drawings, one for topic, to put at the four corners of the Game Board.

The four winner corners

Students vote the four drawings making the corners of the game layout

The four corners selected are added to the layout

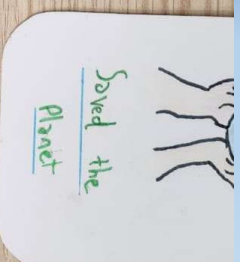

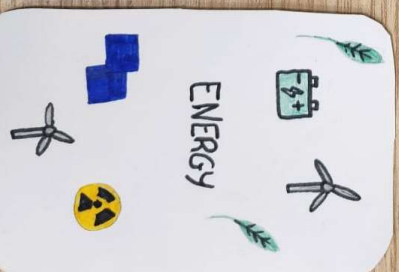

Students prepare the game cards

Students first choose a drawing for each cards, then write the questions and the answers on them

Students play the game they have created

CULTURAL ACTIVITIES

As well as doing activities at school, students took part in cultural activities with the aim to know the most touristic attractions around Torre del Greco.

They visited the coral museum to see the manufacturing of cameo which has made the city of Torre del Greco famous all over the world thanks to the skill of the craftsmen who work it.

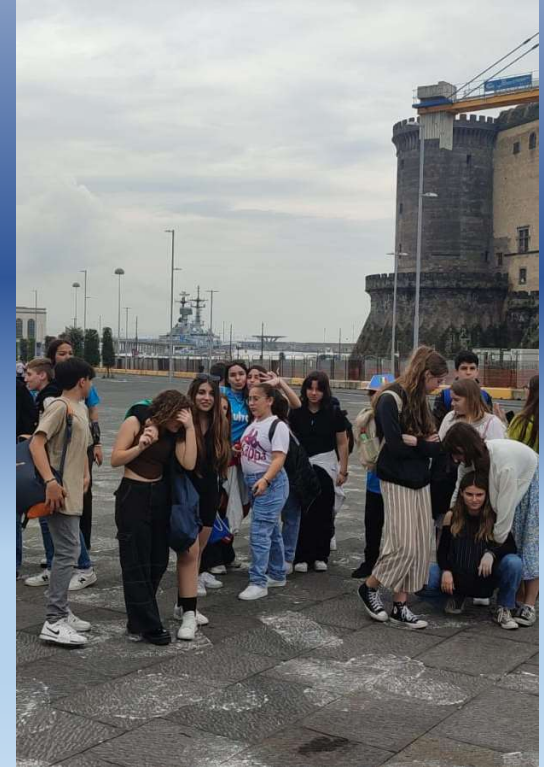

They took a tour of Naples, of Vesuvius and of Pompei ruins to see the Roman ruins still preserved after the eruption of Mount Vesuvius in 79 A.D. which destroyed and buried it.

Departure

The background is a solid blue color. It features several decorative elements: a cluster of white dots in the top-left corner, a larger cluster of white dots in the top-center, a cluster of white dots in the bottom-left corner, and several abstract, light-blue, rounded shapes scattered across the background.

THANK YOU ALL FOR THE LIVELY
PARTICIPATION
